

Kitchen Improvements: From Ordinary to Elite

A kitchen makeover is an exciting way to update your home and breathe new life into your living space. This is where Elite Remodeling comes in! After updating their outdated kitchen space, these homeowners were thrilled with the results. Although there were some positives in their wood-centric space, layout, and functionality were weak, and the space was cosmetically dated. A middle-placed island caused unnecessary congestion, while an absence of color made the room appear gloomy.

Creating an elegant contemporary feel was one of our primary goals, and we were challenged to incorporate all the items homeowners wanted despite the room's constraints. As a result, we chose the right-sized elements and a unique seating arrangement. Thanks to our proven approach, homeowners received a unique, personalized look that maintained a high level of quality.

Imagination can lead to a spectacular transformation

This home was full of family, love, and history—the only thing missing was a complete

renovation. Instead of moving, they decided to "reimagine" their home. Opening the once small and confined kitchen to the dining and family room was no small undertaking but well worth it. The area went from dark and drab to bright and inviting. They wanted an updated feel without going too modern, which would not fit the style of the house. They chose a lighter marble backsplash with fun shapes to add a focal point behind the vent hood, tying in the white/gray granite countertops. Our homeowner also loved "bling", so we incorporated statement lighting fixtures to add sparkle to the kitchen. The flooring was a lighter LVP flooring so the cabinets would add a pop of contrast and provide an overall balanced design. It's always great to make such a remarkable transformation while seeing a huge smile on the homeowners face!

Organize your kitchen in a new way

The decision to remodel a room is pretty easy, but the next step can be tricky. That's where our seasoned team comes in! Your desire to explore new possibilities in a familiar setting makes sense to us. It's for this reason that we wanted to make the cooking area more luxurious; we installed an island with ample seating and rearranged the room to accommodate more people and family time.

Enjoy all the benefits of a freshly spruced up-space

With a little imagination, effort, and demolition, the result was a much nicer flow and sense of connection. A light-colored backsplash and white cabinets made the room appear bigger and brighter. In addition to the newly installed stainless steel appliances, the interior was given a clean, vibrant look through contrasting textures, patterns, and colors. Homeowners now have a kitchen that's easy to maintain and is equipped with plenty of storage. This way, they're compelled to keep everything organized and attractive.

Team member in the spotlight

Madison graduated from Texas State University with a Bachelor's Degree in Interior Design. At Elite Remodeling, her role is to guide customers through the selection and final design process. Working with clients one-on-one allows her to come up with unique kitchen and bathroom designs tailored to meet their needs and specific requirements. Additionally, she works closely with homeowners, giving them a complete understanding of what they're investing their money in. As she puts it, functionality and practicality are always the top priorities, but not at the expense of aesthetics.

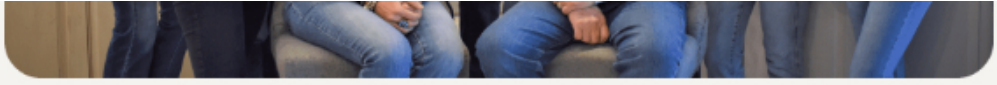

Business Partner in the spotlight – meet Roy Cranfill

Roy the Plumber has been with Elite since day 1 in 2002. He's an extremely valuable asset to us through his skilled knowledge of residential plumbing. So far, we have not encountered an issue that Roy has not been able to resolve. He lives in Aubrey with his bride Sharla. In his spare time, Roy is an engaged "grandpa"!

Thank You!

Our showroom features beautiful displays and a test-drive design area to help you visualize your dream look. Check out color schemes, select tile designs, explore cabinetry textures, browse through our wallpaper options, try out with faux finishes, and see paint samples – all at the same place, at your convenience.

Why is Elite Remodeling your best choice for a kitchen remodel?
