

The Transformation of a Traditional Kitchen

Before Elite Remodeling took over, this kitchen and the entire home looked pretty worn out and sported a very traditional look. Moody and dark cabinetry dominated the space, columns that separated the entertaining areas along with a pretty non-functional island. Additionally, the dining room was used as a storage area for leftover exercise equipment etc. The layout lacked functionality, low ceilings and poor lighting. Fluorescent lighting needed to be removed along with more functional appliances and a layout to fit the needs of the owners.

Take your kitchen to a whole new level

During construction, our first step was to remove the load bearing columns, the wall between the dining room and kitchen island, and open up the kitchen, nook and dining room into one open, inviting and functional space. Gone were the dark stained cabinets, replaced with new custom designed and built cabinetry, wood flooring, and new placements for the sink, cooktop and other appliances. The previously light tile work was replaced with hardwood flooring creating a striking contrast with the new custom cabinetry.

A sensational finish to the Transformation

With the final details applied, the transformation of this kitchen reached its peak, leaving all who witnessed it in awe. The room that once felt crowded and antiquated now hummed with vibrant, sophisticated energy, its modern design elements combining to create a space that was both aesthetically pleasing and functional.

Meet one of our business partners

Saul Escobar, Owner of Escobar Marble & Granite. Saul and his team have been with us for 20 years and are our sole stone fabricator. Escobar is a family owned business where Saul's daughter, Ayhessa, is the General Manager and pretty much runs the shop while Saul and his bride take vacations!

Team member in the spotlight

Mark Ellis joined the company in 2022. He has been in the bath side of the business for more than thirty years. Owning his own company multiple times, Mark has had business operations in Texas, Missouri, and Oklahoma. Mark recently completed his NAHB CAPS certification for aging in place.

Thank You!

Step into our showroom and experience breathtaking displays and an interactive design area, where you can turn your dream home into a reality. Let your imagination run wild as you explore different color schemes, choose from different tile designs, feel the textures of different cabinetry options, look through our fabulous wallpaper collection, play with faux finishes, and so much more - everything you need, right at your fingertips.

trust?

Thinking about upgrading your kitchen? Give Elite Remodeling a ring. Over the past 20 years, we've perfected kitchen spaces, which gives us a good understanding of how to create beautiful and functional cooking areas. So, if you're thinking about refreshing your current setup or creating something completely new, we're here for you. We bring custom-tailored solutions and industry-leading standards to the table. We'd love to hear more about your ideas and address any questions you might have. With our help, your kitchen can be anything you want!
