

## A Kitchen Revival: Where Color Meets Style

We recently talked with a couple planning their new kitchen space, and they had a clear picture in mind: a bright cooking area, but with an island that stood out. While the allure of neutral colors for cabinets and other kitchen elements is undeniable, selecting the right shade and style for the island is a different ballgame altogether. It's here that our remodeling expertise proved crucial. As experts in the field, we helped them navigate the maze of choices, creating something eye-catching that also suited their lifestyle.

---

## The Problem: The overwhelming monotony of neutrals

where its centerpiece reflects the same subdued hues surrounding it. Instead of radiating warmth and vivacity, the space risks becoming a monochromatic expanse that feels cold and impersonal. This over-reliance on muted tones can inadvertently accentuate the room's sterility, stripping the kitchen of its intended charm and dynamism.

---

## The Solution: Infusing color into your kitchen space

It was here that our expertise shined through. Drawing inspiration from the serene coastlines and mysterious ocean depths, we picked a lively green with a hint of blue for the island base. To tie this bold color together with the rest of the space, we topped the island with a white quartz countertop, delicately streaked with gray and black. This combination created visual depth, ensuring it seemed like a natural centerpiece, bringing harmony to the room without dominating it.

---

## Our detail-driven approach

It's clear that the heart of a luxury kitchen beats in its fine details. With this in mind, our transformation didn't end here. We also introduced innovative lighting solutions to illuminate the island perfectly, striking a balance between functionality and ambiance. Next, our selection of counter stools wasn't just easy on the eyes but also comfy for those morning coffees or late-night conversations. And, nodding to timeless elegance while keeping it current, we incorporated graceful corbels and open shelving —perfect spots for the family's favorite cookbooks and that extra storage we all crave.

## Meet one of our business partners - Sergio Cano

Cano Painting has been with us since 2015 and handles most if not all of our interior painting for walls, ceiling, trim and cabinets (as needed). Sergio and his crews repeatedly receive high marks and thank you's from our customers and help us keep our showroom in tip top shape. Cano Painting was also the recipient of Elite's Business Partner of the Year Award in 2019. Cano Painting is owned by Sergio and his brother David.

## Team member in the spotlight - Kelly Parker

Kelli has been with Elite since 2010. She is our lead designer and sales manager. She has 30 years of experience in the kitchen and bath industry, starting out in St. Louis, Missouri, and finishing here in the Dallas area. She has been active in the National Kitchen & Bath Association as chapter president in both St. Louis and Dallas. She is currently on the board of the Women in Construction of the Dallas Builders Association. Her professional credentials include CKD, CBD and CAPS.
